

SWE 155UF-2PB MEDIUM EXCAVATOR

◆ Total weight: 17 t

◆ Engine power: 90 kW / 2 200 rpm

Bucket capacity: 0.61 m³

- Heavy duty tail-less excavator with two-section moving arm and adjustable working scope, which is flexible, stable and efficient
 in construction.
- Large power engine meeting European 5 emission standard is used and hydraulic system is installed for easy and efficient operation and coordination and energy saving.
- ◆ A large space cabin is provided with automatic air conditioning, air suspension damping seat and other devices to provide relaxed and enjoyable driving experience.
- 10-inch touch intelligent instruments, right side integrated operator console, and blind spot monitoring devices on the right side and rear side are installed to show the machine status and surrounding situation at any time.
- Auxiliary pipeline and electric proportional precision control function are provided for different tools and working conditions.
- With large maintenance space and removable enclosure, the maintenance activities could be carried out conveniently and easily.
